Dear Case Employee,

Phase Two of the PeopleSoft ERP implementation, Human Capital Management (HCM), will be going live on January 4, 2005. As part of this implementation you will no longer receive your pay information via an email from ePay@case.edu. Instead, this information will be available to you within the PeopleSoft HCM application. Beginning with the January 15 pay date (or January 31, depending upon your pay frequency), an email will be sent indicating when your current pay information is available to be viewed within PeopleSoft. To access your pay information, you may log into PeopleSoft using your Case Network ID and password. For more information on this process, please refer to the quick reference guide attached to this email or visit our website at www.case.edu/projects/erp.

The second attached file is a quick reference guide outlining the procedure for reporting time within the PeopleSoft HCM application.

All employees will receive an email containing the URL to the PeopleSoft HCM application by 8:30am on January 4, 2005.

If you have any questions, please feel free to email the ERP Team at ERPHCM@case.edu.

Thank you in advance for your continued support,

Jack J. George
ERP Project Director

Assistant Vice President, Human Resources
Welcome to PeopleSoft HCM

PeopleSoft HCM, phase two of Case’s Enterprise Resource Planning (ERP) project, will go live at 8:30 a.m. on Tuesday, January 4, 2005. This powerful, secure web-based system will provide employees with on-line access to pay and benefit information and features significant improvements to time and attendance tracking and timesheet processing.

The Uniform Resource Locator (URL) to access PeopleSoft HCM is as follows: www.case.edu/erp/hcm

You may want to save this URL as a favorite in your web browser. When the sign in page appears, enter your Case Network ID and password (this is the same information that you use to check your Case email). Once you sign in, click on the blue link to go to the “Confidentiality Agreement.” Please read the document and click the indicated check box if you agree to comply with the terms. At the bottom of the page, you will see an “EmplID” number along with your name. This is your official PeopleSoft employee identification number, which will be used instead of your social security number for most payroll, benefits and time-entry transactions. Once you have checked the box, click OK on the next screen. You will be transferred to the Employee Home page and may now proceed to navigate within PeopleSoft HCM.

During the first weeks, we anticipate a period of adjustment as people become comfortable navigating in PeopleSoft. Please be assured that the ERP team is committed to meeting your support and service needs during this time. To ensure a prompt response to your questions, the ERP team has partnered with the Case Help Desk to coordinate and to escalate support efforts. If you have trouble logging in to PeopleSoft HCM or have other HCM-related questions or problems, please call the Case Help Desk at 368-4357. This will allow us to monitor the issues that users have identified and to resolve them more effectively. A “frequently asked questions” list and quick reference guides are available for your use at the following: www.case.edu/projects/erp/hcm-faq.html

Additionally, the ERP team will hold a number of open lab sessions across campus to allow individuals to work with HCM team members to become more familiar with the new functionality that PeopleSoft offers. The times and locations for these open sessions are posted on the ERP project web site at: www.cwru.edu/projects/erp

We believe that this project will benefit all of us here at Case, and will be an important driver for Case’s mission to become the world’s most powerful learning environment.
