UNIVERSITY

DAVID B. MILLER, Ph.D.

Faculty Biographical Sketch

David B. Miller is currently an associate professor at the Mandel School of Applied Social Sciences at Case Western Reserve University. Dr. Miller received his Ph.D. and Master of Public Health from the University of Pittsburgh in 1993 and his Master of Social Work from the University of South Carolina in 1986. Dr. Miller's current research focus is on the health status of African American males. Specifically, he is currently investigating the awareness and knowledge of African American males regarding prostate cancer.

Dr. Miller is continuing to work on the development and validation of the Urban Hassles Index (UHI), which measures chronic daily hassles in urban settings among adolescents and young adults. The UHI is currently being used in a longitudinal study of in which the participants were drug-exposed In utero In May 2011, Dr. Miller was the lead co-editor of a special issue of the journal *Research on Social Work Practice* on the topic of social work practice and intervention with African American males.

Dr. Miller is currently the chair of the Health specialization and is the lead instructor for the Research sequence. He teaches courses in both the masters and doctoral programs. Dr. Miller has worked as a social worker in a maximum-security prison and as a coordinator of a family planning project implemented to address infant mortality, both in the state of South Carolina. Dr. Miller has served as program evaluator for Safe Schools/Healthy Students Initiatives in Sandusky and Garfield Heights, Ohio. He recently served as the program evaluator the Cuyahoga County Strong Start Program. He has also consulted with the United States Federal Probation Office and the Erie County Office of Children and Youth Services. Dr. Miller is currently serving as Councilman-at-Large and President of City Council in South Euclid, Ohio.
